

E 2500-07 On-board pump unit for cleaning/surface prep. applications

Minimum space Maximum performance

The E 2500-07 in "on-board design" with a space requirement of only ca. 0.8 sq.metres (1.0 cu. metres), is an extremely compact high pressure pump unit and thus provides ideal prerequisites for the use of high pressure water where space is restricted.

A further advantage for on-board applications: at only 750 kg this unit has an extremely high power to weight ratio.

550 mm

Performance data

Flow rate	8 l/min
Op. pressure	2500 bar
Power rating	45 kW
Connection	to 125 A plug

Alternative performances e.g. 26 l/min, 900 bar at 45 kW and motor ratings up to 70 kW are possible.

On-board blasting equipment for cleaning/surface prep. applications

Applications

- Spot blasting
- Rust and coating removal in ballast tanks, holds and bunkers
- Blast cleaning and coating removal, superstructures, decks, deck machinery, anchor chains etc.

Cleaning, derusting and paint removal up to 2500 bar
