

E 2500-07 On-board pump unit for cleaning/surface prep. applications

Minimum space Maximum performance

The E 2500-07 in "on-board design" with a space requirement of only ca. 0.8 sq.metres (1.0 cu. metres), is an extremely compact high pressure pump unit and thus provides ideal prerequisites for the use of high pressure water where space is restricted.

A further advantage for on-board applications: at only 750 kg this unit has an extremely high power to weight ratio.

Performance examples

Flow rate	13 l/min*	26 l/min*
Op. pressure	1800 bar	1000 bar
Power rating	52 kW*	
Connection	To 125 A plug	

*Operation with 460 V / 60 Hz supply

Motor ratings up to 70 kW are possible.

On-board blasting equipment for cleaning/surface prep. applications

Applications

- Spot blasting
- Rust and coating removal in ballast tanks, holds and bunkers
- Blast cleaning and coating removal, superstructures, decks, deck machinery, anchor chains etc.

Cleaning, derusting and paint removal up to 2500 bar
