**Handrail Cleaner**

The “Handrail cleaner” has been especially developed for cleaning, rust removal and paint stripping operations on hand rails and pipes up to 50 mm diameter.

*Typical applications*
- Industrial site handrails
- Railings on ships and offshore platforms
- Bridge railings
- Self-supporting pipework

Type HRC 3000
- Manual cleaning unit guided along the pipe
- Housing made of aluminium and synthetic materials
- Parts subjected to high pressure are made of high strength corrosion resistant stainless steel
- A series of roller guides provide consistent standoff distance
- 6 fan jets for optimal all-round cleaning
- Special design for minimal weight

**Technical data**
- Suitable for pipes with outside diameters from 1 to 2 inches
- Operating pressure: up to 43,500 psi
- Flow rate: up to 8 gpm
- 6 nozzle inserts Type „R“ Fan jet 20°, 30°, 45° applicable
- Weight: 14.6 lbs
- Height: 9.5 inch
- Width: 15.0 inch incl. handgrip
- Length: 22.0 inch

Code no. 00.06035.0475
