Protected areas striped

The protective clothing is tested and certified for single and rotor jet.

The label, which is fixed on the clothing, indicates protection for 29,000 psi single jet and 43,500 psi rotor jet.

Note: Different values (pressure, water flow, nozzle, distance, speed) can give significantly different results.

Hand and forearm protection

- Protection against water jets **up to 29,000 or 43,511 inch**, according to the application of the nozzles
- Protection for hand and forearm
- The entire area is protected
- A thumb strap keeps it in place
- Easy to put on
- One size
- Weight: 0,66 lbs

Code no.	Hand
