

E 2500-07 On-board pump unit for cleaning/surface prep. applications

Minimum space Maximum performance

The E 2500-07 in "on-board design" with a space requirement of only ca. 0.8 sq.metres (1.0 cu. metres), is an extremely compact high pressure pump unit and thus provides ideal prerequisites for the use of high pressure water where space is restricted.

A further advantage for on-board applications: at only 1654 lbs this unit has an extremely high power to weight ratio.

Performance data

Flow rate	4 gpm
Op. pressure	26100 psig
Power rating	67 hp
Connection	to 125 A plug

Alternative performances e.g. 7 gpm, 13100 psig at 60 hp and motor ratings up to 90 hp are possible.

On-board blasting equipment for cleaning/surface prep. applications

Applications

- Spot blasting
- Rust and coating removal in ballast tanks, holds and bunkers
- Blast cleaning and coating removal, superstructures, decks, deck machinery, anchor chains etc.

Cleaning, derusting and paint removal up to 36300 psig
